Kindly note 1 - As a parrot is kept in a cage of iron , similarly the Hon. PM has been put in a cage. The Hon. PM is not aware of treasonous activities of the traitor in the Hon. PM office. Grievance Description

New Development in the matter - January 23.

According to news 300 Airplanes order , is in consideration for being increased to 500 Airplanes order.

Tata group was asking only discount in Airplanes order from Seller of Airplanes (Boeing/Airbus).

In place of only finding discount , the Airplanes can itself be manufactured in the nation.

500 Airplanes would cost around 4.5 to 5 lakh crores , in purchase.

09/06/2023

Grievance Status for registration number - PMOPG/E/2023/0025896 , 2nd part.

Development in the matter , Dated 19 Nov 22 requiring great consideration.

In the news published in newspaper Dainik bhaskar Dated 19 Nov 22, Tata group is considering placing order of 300 Airplanes. Copy attached.

This order will be , one of a Largest Order in Aviation history.

If one Airplane price is taken to be Rs 1000 crores , it will cost Rs 300000 crores or Rs 3 lakh crores.

Boeing and Airbus are both competing for order.

It is advised to the Government to tell the Seller of Airplanes to manufacture the Airplanes in the nation , as it is the most opportune and correct moment for manufacturing airplanes in the nation.

Considering such large amount of Monetary consideration in the order , the Seller will definitely agree.

It can be noted the same has been done also in the case of C295 Airplanes.

It will be a major achievement of Government.

Advice copy -

One of the two companies namely Airbus has already arrived in the nation , in 2022 , to manufacture military airplane namely , C295 Aircraft.

It is a deal worth more than Rs 20000 crores.

It shows the relevance of the advice and its feasibility and complete chances of success , in the case of manufacture of Civilian Airplanes also.

To
The Honorable President

Date - 31 August 22

Subject - Regarding the matter of Paramount Importance - Make in India Commercial or Passenger Airplanes.

Respected Madam ,

Manufacture of Commercial airplanes under Make in India programme should be considered.

At present there are only 2 foreign companies in the world manufacturing it.

09/06/2023

Grievance Status for registration number - PMOPG/E/2023/0025896 , 3rd part.

One Commercial or passenger airplane costs starts from around Rs 700 crores to Rs 1500 crores.

If our nation purchases 882 passenger planes from foreign power companies in the next 10 to 12 years , it would cost around - Rs 8.61 lakh crores.

Considering 1 dollar Equals to - Rs 79 and Cost of 1 Airplane sold by foreign power company Equals to - Rs 976 crores , around.

If our great nation manufactures such airplanes in the nation , it will be savings of around 8.61 lakhs crores , in the 10 to 12 years period.

Hundreds of ancillary or supporting industries will also benefit in this great project and hundreds of jobs will be created.

Our great nation is a great software power , with the manufacture of such great hardware as Commercial or passenger airplanes , the nation will achieve its true potential.

Therefore this great endeavour should be paid great consideration in the interest of the nation to be economically advanced.

With Regards

Note 1 -

Boeing and Airbus are two companies that make most of the Commercial or Passenger Airplanes globally.

Note 2 -

Hundreds of ancillary or supporting industries - as tyres , metals , high-quality metal alloys , software , hardware , lighting among others all will benefit.

DRDO , ISRO , Domestic Industries all can work together and provide related expertise and materials to make this manufacturing a success.

Except plane engine , all can be done quickly in the nation.

Plane engine can also be simultaneously or subsequently developed.

Note 3 -

According to newspaper reports within 1 year upto 1000 - 1500 plane orders can be placed by our nation.
